EDUCATION

Raffles University

Diploma in Information Technology
2024 - 2026

SMK Taman Bukit Indah

SPM
2017-2023

SKILLS

Programming Languages

- C++
- Dart
- Python
- SQL

Frameworks & Tools

- Flutter
- Supabase
- Git
- GitHub
- Android Studio
- VS Code
- UE5

Database

- PostgreSQL
- Supabase Database

Other Skills

- UI/UX Design
- REST API Integration
- Agile Development

LANGUAGE

English

Chinese

Malay

ABOUT ME

Motivated Diploma in Information Technology student with hands-on experience in mobile and web application development. Skilled in Flutter, C++, SQL, and database technologies, with experience developing academic projects including university management and smart campus applications. Interested in software engineering, application development, and game development, with a passion for creating innovative and user-friendly digital solutions.

PROJECTS

UniSmart (FYP)

----- 2026

- Flutter Development
- Supabase Integration
- Database Design
- Authentication
- QR Attendance System
- Subject Registration
- Examination Information
- Complaint & Feedback Management
- Role-Based Access Control

CampusGo My

----- 2026

Course Project – Mobile Application Development
Technologies: Flutter, Dart

- Developed a mobile application aimed at improving campus life for university students.
- Implemented modules for timetable management, campus navigation, and event discovery.
- Designed intuitive user interfaces following mobile UI/UX principles.
- Applied state management and responsive design techniques.
- Conducted testing to ensure usability and application performance.

Hangman Game

----- 2025

Course Project – Object-Oriented Programming
Technologies: C++

- Developed a console-based Hangman game using Object-Oriented Programming principles.
- Designed and implemented classes to manage game logic, player interactions, and word selection.
- Applied encapsulation, abstraction, and modular programming techniques to improve code maintainability.
- Implemented input validation, scoring mechanisms, and game state management.
- Enhanced problem-solving and software design skills through structured program development.

CERTIFICATIONS

AWS

- AWS Academy Graduate - Cloud Foundations - Training Badge

Alibaba

- Alibaba Cloud Product Capability Certification

CISCO

- Cyber Threat Management
- Junior Cybersecurity Analyst Career Path Exam
- Introduction to Cybersecurity
